### Find someone who...

#### You will need:

- Group/class of children
- Bingo Template
- Pencil

---

Just like Maverick and Lionel got to know each other better, you might like to use this game to help get to know other children in your class.

1. Print the Bingo Card below.
2. Write a different 'getting to know you' prompt in each of the spaces. You might like to use some of the ideas from the page below. E.g. Find someone who... likes to skateboard.
3. Once you have included a different prompt in each of your bingo spaces, you are ready to now find people to match your descriptions.
4. When you have found someone, write their name in the space provided.
5. The aim is to find someone different for each one.
